HMC Electric Vehicle Charging Program

EV CHARGERS

We are excited to announce our collaboration with TRO Energy Solutions, Inc. (TROES), to introduce a pilot program for Electric Vehicle (EV) charging in select communities. This program will provide in-home Level-2 EV charging to military housing residents, aligning with our commitment to sustainability and energy resiliency goals outlined by the Office of the Secretary of Defense.

Our pilot program will kick off at four of our military bases: Barksdale Air Force Base (Shreveport, LA), Fort Sam Houston (San Antonio, TX), Joint Base Pearl-Harbor Hickam (Honolulu, HI), and Marine Corps Base Hawaii (Kailua, HI). These locations have been selected to cater to the growing interest in Level-2 fast charging among residents in military housing communities.

This initiative aims to position HMC as one of the pioneering military housing operators in the U.S. to offer a comprehensive residential EV charging solution, demonstrating a forward-thinking approach to sustainability-focused infrastructure.

★ “David was great! He took the time to not only troubleshoot our fridge/freezer, but explained to us what was going on with it and what to do if our problem occurs again since it was out of our control. David was also very personable and respectful of our home. He has been loads more helpful than technicians in the past. Thanks David!”

★ “Our maintenance technician was Robert. He is very professional and always gets the job done quickly and correctly the first time. Thank you so much for working on our problem quickly. The gentleman was so professional and easy to work with. Thank you.”
